INSURANCE PARTNERS
A World of Safety & Protection

"Insurance is the product you hope you never have to use. But when you do, your policy better perform the way your agent said it would. For Polaris, we had an incident where we needed to call upon our policy. The coverage that our agent, Andrew Gallegos, recommended ended up protecting Polaris when we needed it most. If it wasn't for Andrew, I don't know where we would be. The values Andrew learned in the United States Marine Corps and in business have protected Polaris since our inception."

Polaris Logistics Group

"I have known the Shrader family for many years and know them to be honest and trustworthy. Shrader Tire will take care of you when your truck breaks down and will get you back up and running quickly and for a fair price. They are also great at preventive maintenance. Neil Chryst will get you taken care of"

Polaris Logistics Group

BREAKDOWN & TIRE SERVICES

"Running a business is hard enough without having to navigate the jumble of tax laws around the country. CliftonLarsonAllen is the 9th largest accounting firm in America and has been able to pull experts from around the country to help us mitigate our tax issues. Doug Sosko at CLA has been instrumental in helping our business."
